Friends

This Mission Module is provided through a Partnership with Aging with Significance, of the Women’s Missionary Union of Virginia and the Virginia Baptist Union Board; and Caregiving Ministries, a division of FamilyCare America, Inc.
Purpose

Members often feel isolated due to lack of independence and mobilization. The mission of the Friends Ministry Team is to provide companionship and personal support to members and their families.

Goals

• To provide regular personal contacts with members and their families, strengthening the bond with the church in companion relationships.
• To provide a useful outlet for caregivers to have a safe and confidential place for exploring problems and joys related to their role through Caregiver Support Groups.
• To decrease stress among caregivers through respite and resource information.

Objectives

• To have an organized system of trained volunteers who will be contact links for the church.
• To offer brief respite for caregivers as a ministry of "giving them a break."
• To offer support groups to meet the needs of caregivers.
• To provide educational materials to members and families regarding issues pertaining to their particular needs.

Parameters and Limitations

The Friends Ministry does not:

• provide personal care (bathing, transferring, toileting, cleaning) for members.
• replace agencies that provide in-depth personal or respite care.
• provide extended respite care which could put the volunteer and recipient at risk.
• take the place of respite assistance from available family members.
The Friends Ministry does:

- offer companionship to members and their families.
- offer brief (not more than two hours) respite.
- offer support groups for families/caregivers.
- make members and families aware of resources available to them.

SUGGESTED PROCESS FOR THIS MINISTRY

1. Inform the church as to the needs this ministry is designed to meet, educating about the Friends Ministry Team, its purpose, and parameters.

2. Survey the church for individuals and groups who are willing and able to become a part of the Friends Ministry Team. (See Appendix A.)

3. Provide training to volunteers

4. Assess members by working with individuals and their families to determine needs and ways the Friends Ministry Team and family can cooperate to meet those needs. (See Assessment at the end of this section.)

5. Organize a list of individual as well as group volunteers whose gifts are:
   - visitation
   - telephone contacts
   - brief respite care
   - support group leader
   - resource coordinator (educational materials, community resources, etc.)
6. Match volunteers with needs found.

7. When providing brief respite, make sure the caregiver understands the time limit. The volunteer does not want to be put in the position of providing personal care needs for the member. This could put the volunteer and the recipient at risk.

8. Develop and lead a Caregiver's Support Group:
   - Determine time and place
   - Invite interested caregivers
   - Have one person serve as a facilitator to encourage persons to share as they choose and to encourage members to take responsibility for him/herself and others
   - Provide guidelines for safety and confidentiality (i.e., what is shared in the group remains in the group)
   - Encourage networking of caregivers

9. Develop the resource aspect of this ministry by keeping an updated list of community resources and literature for volunteers and families.

10. Keep a calendar for volunteers to record visits, respite provided, and support group meetings. This is a tool to prevent overlooking anyone.

11. Schedule regular meetings for volunteers to:
   - increase knowledge of aging issues and disease processes through in-service training
   - provide support to each other
   - discuss and work out problems with the Friends Ministry Team
